

7 TH ANNUAL ZEBRA DAZZLE 5K

SATURDAY, SEPTEMBER 12, 2026 AT ROCK CREEK PARK IN WASHINGTON DC

ZEBRAS IN MOTION

At Zebras In Motion, we are committed to bringing others together with us in the fight against Amyloidosis. In April 2019 we lost our sister Charmaine to this rare, and often fatal, disease. We learned from our experience that education and awareness are key. You can live with Amyloidosis, but an early and correct diagnosis is vital. Zebras In Motion is devoted to honoring Charmaine's passion for running and her desire to help others achieve health and wellness.

 @zebrasinmotion

*A portion of the proceeds will go towards the **Amyloidosis Foundation** with love to support patients and families while promoting research, education, and awareness.*

WHAT IS AMYLOIDOSIS ?

AMYLOIDOSIS is a term that represents several different types of diseases where an abnormal protein called amyloid is produced. These amyloid protein fibers can attach and deposit into organs, tissues, nerves, and other places in the body. When that happens, normal function of the area can be affected. As the amyloid protein increases, health problems and organ damage may occur. "OSIS" means increased, or an abnormal, supply of AMYLOID protein.

Most amyloidosis diseases have different treatments; therefore, the correct diagnosis is extremely important.

PARTNER WITH US

Experience Partner –The purpose of this partnership is to provide services and/or products for the 7th Annual Zebra Dazzle 5K. In return, Zebras In Motion commits to the benefits outlined below to ensure a mutually beneficial partnership—one that helps reduce event costs and allows us to give back more to our cause as we continue raising awareness for amyloidosis.

We are especially excited to partner with locally owned businesses in the DMV area to enhance the Zebra Dazzle experience while strengthening community connections and supporting meaningful impact.

- Company logo placed on promotional e-blasts, literature, and flyers
- Company logo placed on race t-shirts
- Acknowledgement on race website
- Company-provided promotional materials to distribute
- Complimentary race entry

Previous Sponsors and Partners

DID YOU KNOW ?

A herd of zebras is called a dazzle. When zebras move together, their stripes create a phenomenon known as motion dazzle—a natural form of protection that confuses predators and strengthens the herd. Alone and standing still, a zebra is vulnerable. But together, in motion, they are powerful.

Amyloidosis patients and families face a similar reality. Progress happens when we stand together—raising awareness, advancing research, and ensuring no one faces this disease alone.

Join the dazzle— walk, run or bike 100 miles. Become a sponsor or contribute today to help amplify awareness, fund critical initiatives, and support those impacted by amyloidosis. Together, our collective impact is stronger, louder, and impossible to ignore.
